About Me

A skilled Full-Stack Developer with 2 years of experience specializing in the MERN stack, proficient in building scalable web applications and APIs. Proven track record in designing and implementing high-performance systems, collaborating with cross-functional teams, and delivering user-focused solutions. Adept in modern web technologies such as React, Node.js, and Next.js, with a strong foundation in Python, Java, data structures, and algorithms. Passionate about problem-solving, continuous learning, and contributing to innovative projects.

Skills

Python · Java · JavaScript · HTML · CSS · React · Redux · Node.js · Express.js · Next.js · SQL · MongoDB · Git · GitHub · RESTful APIs · Prisma · Object-Oriented Programming (OOP) · Data Structures · Algorithms · Database Management Systems (DBMS)

Work Experience

System Engineer - Infosys
08/2022 - Present | Pune, India

- Completed a 6-month rigorous training program as an Ace Programmer, achieving an 87% score in assessments. The program focused on Java, DBMS, and the MERN Stack, solidifying core development skills.
- Worked on the development of RESTful APIs for various clients, resulting in a 30% reduction in API response times by optimizing code and utilizing caching mechanisms.
- Played a key role in database management, ensuring data integrity and improving query efficiency by 15% through index optimization and database schema revisions.

Teaching Assistant - Coding Ninjas
10/2021 - 01/2022 | Delhi, India

- Clarified complex programming concepts for over 100 students, helping improve their understanding of topics such as data structures, algorithms, and object-oriented programming.
- Assisted students in formulating logic and solving more than 200 challenging coding problems, leading to a noticeable 20% improvement in their coding performance over the course of the program.
- Provided one-on-one mentorship and debugging support, resulting in a 90% success rate for students in resolving code issues independently.

Education

Bachelor of Technology in Computer Science and Engineering - B.M Institute of Engineering and Technology
08/2018 - 07/2022

12th Board (Non-Medical with computer science) - Spring Meadows Public School
04/2017 - 03/2018

Projects

Project Planit
02/2024 - Present

- Developed a project management tool enabling teams to track tasks, deadlines, and project progress, improving team efficiency.
- Integrated real-time updates and feedback features, allowing users to collaborate seamlessly and manage tasks efficiently.
- Designed an intuitive user interface that reduced the learning curve, making project management accessible for teams across various industries, including tech, marketing, and design.

BoardX
01/2024 - 02/2024

- Developed a real-time collaboration tool that supports simultaneous editing and viewing for users, boosting team productivity.
- Built a diverse toolset including drawing, writing, and image embedding features, so users can adopt the platform for varied use cases.
- Ensured accessibility across devices for remote teams and users working on the go.
